WORK EXPERIENCE

- **Software Developer Intern – Anarav Technologies Private Limited** **February 2026 — June 2026**
 - Designed and developed **modular user interfaces** and **reusable components** for scalable single-page applications using Next.js (App Router), TypeScript, and Tailwind CSS.
 - Engineered a dynamic corporate website for [Tag Ventures](#) by integrating **Sanity.io headless CMS**, designing custom content schemas to empower independent, real-time client updates.
 - Collaborated with cross-functional teams to deploy production-ready platforms for [Anarav Technologies](#), [Simvora Technologies](#), and [Bharath Home Services](#) along with 6+ additional live platforms featured on my [portfolio](#).
 - Optimized application performance and data streaming using **Next.js Server Components and Actions**, ensuring fast initial page loads and secure form handling via Web3Forms.
- **Web Development and Cloud Integration Intern – SkillDzire** **November 2025 — March 2026**
 - Developed and maintained responsive web applications using **React.js, HTML5, and CSS3**, ensuring smooth user experiences across devices.
 - Managed **Git-based version control** and deployed applications using GitHub and **Vercel**, streamlining the transition from development environments to staging and live production.

PROJECTS

- **Human Management System | MERN Stack** [Live](#) | [GitHub](#)
 - Developed a full-stack Human Management System using React, Node.js, Express.js, and MongoDB with **JWT Authentication** and **RBAC (Role-Based Access Control)**.
 - Built secure Admin and User dashboards with protected routes, role-based **authorization**, and **REST APIs**.
- **Furniro – Full-Stack E-Commerce Platform | MERN Stack** [Live](#) | [GitHub](#)
 - Built a responsive **MERN** e-commerce platform with reusable **React components** and REST APIs.
 - Developed an admin dashboard for inventory and product management with **secure authentication**.
