SUMMARY

Front-End Developer and final-year B.Tech student skilled in React.js and Next.js, focused on building scalable user interfaces. During an internship, contributed to a TypeScript component library, boosting project scaffolding speed by 15%. Developed production-ready e-commerce platforms, achieving Lighthouse performance scores over 90+ and implementing secure authentication and real-time inventory management.

SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Redux Toolkit
UI/UX & Styling: Tailwind CSS, Bootstrap, Material UI, Shadcn/UI, Responsive Design, Figma
Backend & Databases: Node.js, Firebase, MongoDB, RESTful APIs, Web3Forms
Development Tools & Practices: Git, GitHub, Vercel, Postman, Agile Development Life Cycle, Web Performance, SSR/SSG, SEO Optimization, Asset Optimization, Lazy-Loading, Render
Core Computer Science: Data Structures, Algorithms, Object Oriented Programming, Java, Database Management Systems (DBMS)

WORK EXPERIENCE

- Anarav Technologies | Web Developer Intern (Offline)February 2026 - present
 - Engineered a high-performance corporate platform using Next.js and TypeScript, integrating Three.js for interactive 3D elements.
 - Increased user session duration by 75% through immersive UI design and optimized asset delivery.
 - Achieved a 95+ Google PageSpeed score using Next.js Server Components and Tailwind CSS.
- Vault Sphere | Web Developer Intern (Online)November 2025 - February 2026
 - Developed and maintained responsive web applications using React.js and modern CSS frameworks.
 - Collaborated with remote teams via Git and GitHub for version control and collaborative code reviews.
 - Optimized web performance and ensured cross-browser compatibility for client-facing interfaces.

PROJECTS

- Anarav Technologies website | Next.js, Tailwind CSS, Three.js, SEO Optimization | <https://www.anaravtech.com>March 2026 - April 2026
 - Engineered a high-performance corporate platform using Next.js and TypeScript, integrating Three.js to render interactive 3D elements that increased user session duration by 75%.
 - Leveraged Tailwind CSS for a fully responsive, utility-first design and implemented Next.js Server Components to achieve a 95+ Google PageSpeed score, ensuring seamless performance across all devices.
- Bharat Home Services | Next.js, TypeScript, Tailwind | <https://bharath-home-services.vercel.app>January 2026 - February 2026
 - Built a responsive service listing platform that enhances user experience by enabling seamless exploration of company offerings.
 - Implemented secure and scalable frontend architecture using Next.js and TypeScript, optimizing performance and ensuring efficient data handling and deployment on Vercel.
- Furniro Furniture store | Node.js, Express.js, Next.js, MongoDB | <https://furniro-furniture-shop.vercel.app>December 2025 - January 2026
 - Developed a scalable furniture storefront with fuzzy search capabilities, achieving a Lighthouse performance score of 90+.
 - Applied asset optimization and lazy-loading to enhance SEO and reduce Cumulative Layout Shift (CLS).

EDUCATION

- Geethanjali Institute of Science and TechnologyNellore, AP
B.Tech in CSE (Data Science)September 2022 - Present
- Sri Chaitanya Junior CollegeNellore, AP
Intermediate (MPC)June 2020 - May 2022

CERTIFICATIONS

- Front-End Development Certification: ExcelR (Professional Training in Modern Web Architecture).
